MAORÍ

PRO 

SHAPE	Tear
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Carbon & Fiberglass
PROFILE	38mm
WEIGHT	355-375 gr. (to choose)
CORE	38mm

Racket Falcon Maorí, high competition. It's made with our magnificent high recovery EVA SOFT. The composition is one layer carbon and fiberglass. Perfect control and power in each smash. Kevlar tubular.

The tear shape will give you more power on every shot. Its rugged design with profiled hawks will facilitate the transmission of the spins. The design incorporates a matte varnish finish.

To tie the racket, we incorporate a small wrist strap.

HUNTER

PRO

SHAPE	Round
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Carbon & Fiberglass
PROFILE	38mm
WEIGHT	355-375 gr. (to choose)
CORE	38mm

Our Falcon HUNTER shovel for advanced players. Equipped with our magnificent EVA SOFT High Recovery system. Its circular shape makes it the carbon racket with more control. Kevlar tubular. Its double layer carbon composition provides more power in every shot.

The exterior design incorporates wrinkled parts in the form of small hawks which allow the player to give more spin to the ball. Colour: dark grey, black and orange tones with a matte varnish finish.

SPEED

PRO 

SHAPE	Tear
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Tri Carbon & Fiberglass
PROFILE	38mm
WEIGHT	355-375 gr. (to choose)
CORE	38mm

Our Falcon SPEED shovel for advanced level players. Equipped with our magnificent EVA SOFT with high resistance to deformation. It is Falcon's most powerful racket thanks to the three layers of carbon that compose it. Kevlar tubular.

The exterior design incorporates wrinkled parts in the form of small hawks which allow the player to give more spin to the ball. Colour: red, white and black with a matte varnish finish.

FUSION

PRO 

SHAPE	Tear / Diamond
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Carbon & Fiberglass
PROFILE	38mm
WEIGHT	355-375 gr. (to choose)
CORE	38mm

Racket Falcon Fusion, high competition. It's made with our magnificent high recovery EVA SOFT. The top of the racket is different than the middle. The top has one layer more of carbon that will give you extra power when you smash the ball. On the middle is the same composition of Maorí (Carbon + Fiberglass).

Its rugged design with profiled hawks will facilitate the transmission of the spins. The design incorporates a matte varnish finish.

To tie the racket, we incorporate a small wrist strap.

VOLTOR

PRO 

SHAPE	Tear
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Carbon & Fiberglass
PROFILE	38mm
WEIGHT	355-375 gr. (to choose)
CORE	38mm

Racket Falcon Voltor, high competition. It's made with our magnificent high recovery EVA SOFT. It has a carbon layer more than the Maori racket, so it increases its power.

Its rugged design with profiled hawks will facilitate the transmission of the spins. The design incorporates a matte varnish finish.

To tie the racket, we incorporate a small wrist strap.

AMUR

SHAPE	Tear
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Carbon + Fiberglass + Graphene
PROFILE	38mm
WEIGHT	355-375 gr. (to choose)
CORE	38mm

Racket Falcon Amur, high competition. It's made with our magnificent high recovery EVA SOFT. Perfect control and sweet point. The racket is composed of a layer of carbon, fiberglass and graphene.

This graphene racket will give you so much comfort in each shot. The tear shape will give you more power on every shot. Its rugged design with profiled hawks will facilitate the transmission of the spins. The design incorporates a matte varnish finish.

To tie the racket, we incorporate a small wrist strap.

YAGGAR

ADVANCED

SHAPE	Round
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Fiberglass
PROFILE	38mm
WEIGHT	350-365 gr. (to choose)
CORE	38mm

YAGGAR ADVANCED

Racket Falcon Yaggar high competition. Our most control racket with a round shape. Its rugged design with profiled hawks will facilitate the transmission of the spins. You'll have a full hitting sweet point and an impressive hitting sound. Black and fluor pink design.

To tie the racket, we incorporate a small wrist strap.

YAGGAR

ADVANCED 

SHAPE	Round
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Fiberglass
PROFILE	38mm
WEIGHT	350-365 gr. (to choose)
CORE	38mm

YAGGAR ADVANCED

Racket Falcon Yaggar high competition. Our most control racket with a round shape. Its rugged design with profiled hawks will facilitate the transmission of the spins.You'll have a full hitting sweet point and an impressive hitting sound. Black and red design.

To tie the racket, we incorporate a small wrist strap.

YAGGAR

JUNIOR

SHAPE	Round
RUBBER	EVA Soft with high resistance to deformation
COMPOSITION	Fiberglass
PROFILE	38mm
WEIGHT	290-365 gr. (to choose)
CORE	38mm

It exists with weights around 290 grams and with a narrower handle, ideal for boys and girls who are starting out and don't want to give up having a high quality shovel.
